HUGE

Overall natural appearance

As a hard resin teeth line, KAIJING combines exceptional aesthetics with popular shades and familiar moulds.

Natural appearance and easy to use

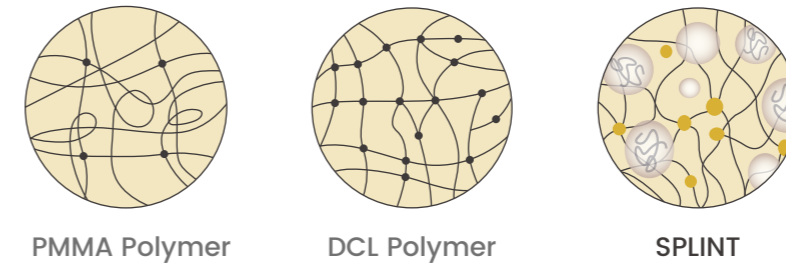

- >> 4 layers color rendering with life-like moulds
- >> Keep crystal clear after grinding and polishing
- >> Various moulds catering for Asian face shapes

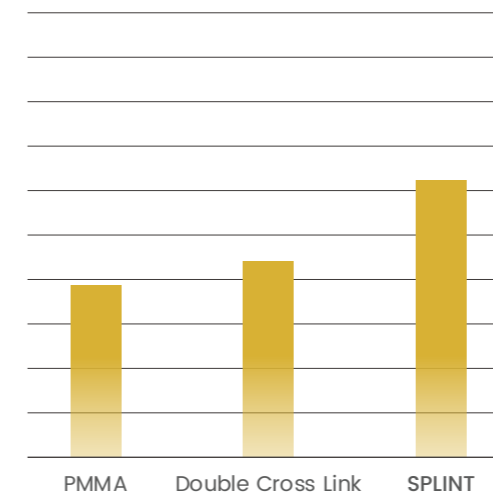

Proven material and impressive performance

Good stain resistance
 Keep crystal clear after grinding and polishing
 Hard resin teeth with good wear-resistance
 Extra-hard teeth are integrated with patented pre-polymerized SPLINT* fillings, known for superior bonding strength compared to conventional composite resin

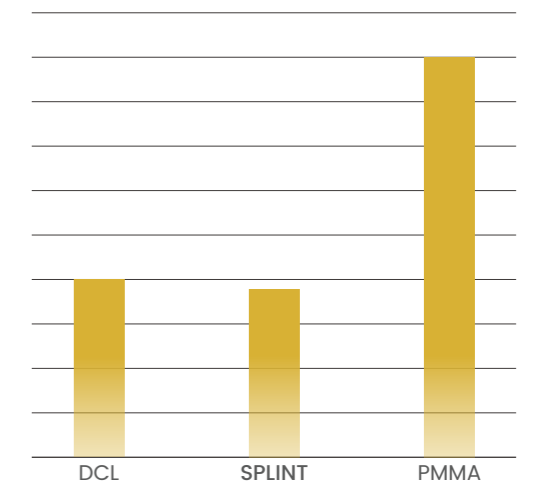

*SPLINT combines PMMA monomer with micro-diameter filler to achieve higher structural strength than conventional PMMA structure.

Vickers Hardness^[1]

Wear Resistance (Weight-Loss Rate)^[2]

Better stain resistance, easier daily maintenance

KAIJING
Artificial Denture Teeth

Focus on aesthetics, properties and function.

Moulds

- >> 10 upper anterior moulds
- >> 10 lower anterior moulds
- >> 6 posterior moulds

Shades

- >> Popular shades: A2, A3, A3.5

Packaging

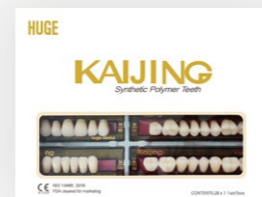

- >> Anterior: 6x16/Box (6pcs/card, 16 cards/box)
- >> Posterior: 8x12/Box (8pcs/card, 12 cards/box)
- >> Full set: 28x1/Box

6x16/box
(6 pcs/card, 16 cards/box)

8x12/box
(8 pcs/card, 12 cards/box)

28x1/single box

HUGE Digitalife™ Denture Solution

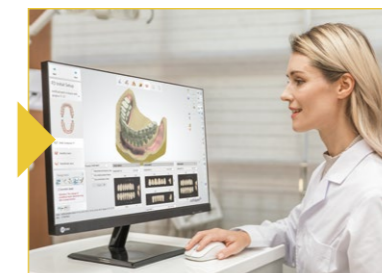

HUGE Digitalife™ is our state-of-the-art Digital Denture Design Concept. It features the harmonious integration of base and denture teeth.

We've now made our entire range of tooth libraries available for 3Shape and exocad. With our functional designs and aesthetically pleasing results, we hope both your professional team and your patients will appreciate the quality of dentures made from digitally fabricated bases and prefabricated teeth.
